

HARIPRASANTH P S

Chennai, India | penuhariprasanth@gmail.com | +91 8248754472 | linkedin.com/in/hariprasanth-ps

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 4+ years of experience architecting, developing, and optimizing scalable enterprise applications. Experienced across frontend technologies (HTML5, CSS3, JavaScript) and backend systems (ColdFusion, REST APIs, SQL). Track record of delivering solutions that reduce processing delays, improve system efficiency, and enhance user experience — with a focus on performance optimization, database design, and Agile collaboration.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL, PL/SQL, CFML

Frontend: HTML5, CSS3, JavaScript, AJAX, JSON, Responsive Web Design

Backend: ColdFusion (2016, 2021, 2023), RESTful APIs, Microservices Architecture

Databases: Oracle Database, Microsoft SQL Server, MySQL, Query Optimization

Data & Analytics: Apache Spark, Kafka, ETL Processes, Data Validation

DevOps & Tools: Git, GitHub, Azure DevOps, CI/CD Pipelines, VS Code, Postman

PROFESSIONAL EXPERIENCE

Software Engineer — Prodapt Solutions, Chennai, India

June 2022 – Present

- **Rapid Response Application (Windstream):** Architected and developed full-stack web applications using CFML, JavaScript, HTML5, and CSS3, processing high-volume transaction requests with 99.2% uptime.
- Cut average response time by 40% by identifying database bottlenecks and rewriting SQL queries, improving experience for 50,000+ active users.
- Designed RESTful APIs enabling 15+ third-party applications to integrate with zero downtime.
- Collaborated cross-functionally with product, QA, and DevOps teams in Agile sprints, consistently hitting sprint velocity targets.
- Mentored 3 junior developers on full-stack best practices and code review standards.
- **Bad Debt Application (Windstream):** Designed the SQL Server database architecture for customer data management and outstanding balance tracking.
- Automated ETL pipelines in SQL Server, cutting manual data-import effort by 85% across \$2M+ in receivables and eliminating entry errors.
- Built SQL-based analytical dashboards for collections reporting, improving collections efficiency by 30%.
- Provided technical support and documentation across 5 regional offices, cutting support tickets by 20%.

KEY ACCOMPLISHMENTS

- **Automated Data Validation Framework:** Cut manual effort 75%, processing errors 95%, and tripled operational throughput.
- **Azure DevOps KPI Reporting:** Built ticket-extraction and KPI automation; recognized with Star Award of the Month.
- **Performance Excellence:** Delivered optimized, production-quality code across 20+ deployments.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering

St. Joseph's College of Engineering, Chennai · June 2018 – June 2022

CGPA: 8.2 / 10
